KERR-ADDISON GOLD MINES LIMITED

(FOR INTER-OFFICE USE ONLY)

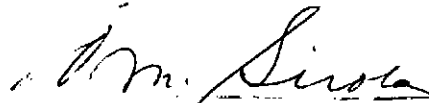

To..... Mr. P. M. Kavanagh..... From..... W. M. Sirola..... ✓

Subject..... Swim Lakes "A" Group - Diamond Drilling..... Date..... May 3, 1966.....

Enclosed are four letter sized plans of the various zones we will be drilling on the "A" Group.

In the case of zones 1 and 2, I have coloured in red pencil the first two holes of each zone. The disposition of these drill holes is such as to quickly give us dip information on each zone.

For zones 3, 4 and 5, I have shown in red pencil one vertical drill hole in the eye of the gravity anomaly. Barring unforeseen problems, these will be drilled through to the graphitic footwall in each case.

W. M. Sirola.

To..... Mr. P. M. Kavanagh..... From..... W. Sirola..... ✓

Subject..... Swim Lakes "A" Group - Diamond Drilling..... Date..... April 29, 1966.....

The instructions I have given Fred Chow regarding the disposition of the four drills are as follows:

<u>Zone Number</u>	<u>Location</u>	<u>Bearing</u>	<u>Dip</u>	<u>Direction of Next Move</u>
1	A-6-A	S 30° W.	60°	Westward on same tier.
1	A-4 + 200' N	S 30° W.	60°	Westward on same tier.
2	150 ft. N. of center of Bouger anomaly.	S 30° W.	60°	Northward to second tier in line with upper hole. The same bearing and dip.
5	Line 13 E. B.L. 2 + 700 S.		90°	If economic mineralization encountered, move 200 feet N. Otherwise, move to zone four and drill vertical hole on line 10 - 600 N.
