RE: 1988 MM Trenching Samples

Eighteen samples were collected during the mapping of the 1988 MM trenches. The attached spreadsheet and figures delineate the locations of the samples relative to the trenching report. A subset of 10 of these samples will be given to Bondar-Clegg for assay for the elements Cu, Pb, Zn, Ag, Au, Ba. Grab samples were broken and some material retained before being forwarded to Bondar-Clegg.
