LINECUTTING
NASTY CLAIM GROUP
1967

A grid was established (October 1-12, 1967) on the NASTY claims utilizing a D7 Caterpillar Tractor and a survey crew.

All lines were kept straight by transit control. A base-line 15,200 feet long was cut, chained and crosslines turned off at 800 foot intervals. Stations were chained at 100 foot intervals along all lines and marked with lath. A total of 14.17 miles of line was cut.

The crew stayed at the Swim Lake camp of Anvil Mining and was transported daily to the Nasty grid by helicopter. Most of the fuel was lifted by helicopter from the top of Blind Creek hill on the Faro Access Road.

The tractor was hired from G. Malone, Whitehorse, and the survey crew from White, Hosford & Impey Limited, Whitehorse. The pertinent invoices are enclosed.
