

November 8th, 1972,

Mr. Al Kulan,
Ross River, Y.T.

Dear Al:

I enclose rock geochem results from typical specimens we obtained from your Pelly River showing. We think that the main units of the sections are Triassic and do not hold much promise for typical Anvil lead-zinc sulphides. We appreciated the chance to look at your property, however, we do not wish to pursue it any further.

With respect to the Canada Development Corporation, the president's name is M. A. Crowe.

We look forward to seeing you in Vancouver.

Yours truly,

DYNASTY EXPLORATIONS LIMITED,

J. S. Brock,
Vice-President Exploration

JSB/mp
