

**LEGEND**

	Biotite-Muscovite granite		Mount Mye formation - Pelitic, non-calcareous phyllite		Vertical projection of Sulphide Deposit
	Ordovician volcanics+Earn Group		Mount Mye formation - Pelitic, carbonaceous phyllite		Exploration Diamond Drill Hole (overburden depth/total depth) major rock types in ddh
	Vangorda formation - Calcareous phyllite		Mount Mye formation - Pelitic, non-calcareous schist		Exploration Rotary Drill Hole (overburden depth/total depth) major rock types in rdh
	Vangorda formation - Basal carbonaceous phyllite		Mount Mye formation - Marble		Proposed Diamond Drill Hole
