Mr. George Spalding  
Whitehorse Assay Office  
WHITEHORSE  
Yukon Territory

Dear George,

We would like to have composites run for copper and gold on the sample numbers indicated on the enclosed sheet.

If you are unable to do this work prior to your December closing date, we will understand, but it would be helpful if these could be done ahead of closing time.

Many thanks for your continued co-operation.

*Whitehorse looks closing for  
Holiday season. Bill would  
like this info. before closing  
if possible - it may give a  
lead to cupfurnace  
mineralized zones.*

*WMS Dec 2/74*

*Kerr-AEY*

Diamond Drill Core to have Composite Cu, Au run.
