1976 Surface Drilling on CNR Ground

During the 1976 surface program we drilled a number of holes on CNR ground. I am not certain of what arrangements were made with CNR although MDR gave his approval. For your records & any billing purposes the holes were:

A 143	Champ 7 claim.	drilled by Kerr
A 149	"	"
A 136	"	"
A 135	"	"
A 139	"	"
A 137	"	"

Additionally, CNR drilled holes A129, A130 & A131 Champ 7 claim, earlier this year on their own account. Once CMS's September billing is in you should be able to get the costs for the above 6 holes.

John.
