Attn: Mr. Greg Jilson

Dear Sir:

Re: Application 12656 - Limestone Quarry Site

This letter is to advise you that your application for Quarry at Eagles Nest Bluff was reviewed by the Federal Territoiral Lands Advisory Committee and subsequently denied. This particular area is inhabited by Raptors within the proposed site and is also of significant native as well as Klondike historical interest.

I have attached maps showing other potential quarry sites which you may wish to investigate and apply for which do not have the above problems.

This office will keep this application file on record so that you do not have to re-do the form, just amend with a new location.

Should you wish to discuss this further feel free to call me anytime at 667-3174.

Yours truly,

Lorne Gay,
Supervisor of Lands
