Legend

- uDis fossiliferous carbonates & clastics
- uDe Eorn Gp
- uDmm Mag Mtn volcanics } lateral equivalents?
- OSDS fossiliferous clastics, carbonates, rhyolite
- EOKd KD volcanics (EOKdm highly mineralized)
- bi basic intrusives, plug
- EOpgm phyllite with lenses of greenstone and marble
- EOp grey phyllite
- schist calc silicate schist
- Hsch biotite muscovite schist (much in amphibolite facies)
- ★ mineral occurrence
- ☆ geochemical anomaly
- ↗ bedding showing facing
- ↘ thrust fault
