KERR-ADDISON GOLD MINES LIMITED

(FOR INTER-OFFICE USE ONLY)

020704

To..... W. M. Sirola..... From..... P. M. Kavanagh.....

Subject..... NX Drilling Vangorda Mines Property..... Date..... Sept. 29/64.....

This is further to my telephone conversation with you yesterday.

The cut-off grade to adhere to is 4% combined lead-zinc.

The old hole at Location #1 - the location where the drilling is in progress - is Hole #15. That hole had a mineralized section between 164' and 246' which was all above the cut-off grade except for a 5.2 foot section between 192.5 and 198 which assayed 2.15% combined and the last 5 feet which assayed 3.94% combined.

If your assaying of the mineralized core you receive from the property shows a comparably thick section almost all above the cut-off grade, with only one or two narrow sections not above the cut-off grade, then all of the section should be included in the material to be sent for analysis. However, if after receiving your assays you would like some advice as to what to include in the material for analysis, and what not to include, please send the logs of the mineralized sections and associated assays to Mr. Row for consideration and he will advise you accordingly.

Mr. Row's thought is that a quarter sample of the core should be sent for assay. Later when it is decided what material is to be sent for analysis, the remaining 3/4 of the core of that material should be crushed and mixed together. Then 50 Kgs of that total sample should be riffled out and sent to :

Mr. S. Shimoda
c/o Mitsui and Co. Ltd.
United Kingdom Building
Room 1101
409 Granville Street
Vancouver 2, B.C.

The remaining part of that total sample should be forwarded by CNR rail freight to:

Lyall Ames

TORONTO 1, Ontario.

Attention: Mr. W.S. Row, President.

Gentlemen:

Re: Vangorda Mines - Fresh Samples.

We would like to thank you for preparing a quantity of new fresh core samples for Mitsui Mining & Smelting Co., to represent Vangorda zinc-lead property which you expect to have around middle of October 1964.

We would like to ask you to send 50 kgs. of same (minimum 30 kgs. required) to the following address.-

Mr. S. Shimoda,
c/o Mitsui & Co. Ltd.,
United Kingdom Bldg.,
Room 1101,
409 Granville Street,
VANCOUVER 2, B.C.

Yours very truly,

MITSUI AND COMPANY (CANADA) LTD.
