Here is the draft Agenda for the Whitehorse workshop. Please note that it appears from Joanna's email message below, that they are interested in seeing the Fish&Wildlife and the Geology and Mineral Potential presentations done in Old Crow along with Tourism.

I think Grant Abbott was going to present with DIAND in the morning anyway.
Here's another draft of the schedule.

Hi All,
I would recommend that we get Geology and Mineral Potential of the Planning Region and the Fish and Wildlife presentations to be in Old Crow along with Tourism. That way there is somewhat of a balance, and it will leave an extra spot open for a late comer in Whitehorse.

So far I've heard from the Canadian Wildlife Service (Don Russell) about presenting in Old Crow. VGFN will be doing a number of presentations, as will the local RRC, but that's all I know about so far. I'll get on the phone later today to find out who else wants to present in OC.
