Re: Evaluation of gravity data - northern Yukon

Dear Danielle,

Thank you for your inquiry into plotting and evaluation of gravity data for the Canada/Yukon Geoscience office. Amerok Geophysics could provide you with the following services in support of this project:

- a. Plotting of Bouguer anomaly data (estimated time - 2.0 hrs).
- b. Plotting of vertical gradient of Bouguer anomaly data (estimated time - 3.0 hrs)
- c. Plotting of horizontal gradient of Bouguer anomaly data (estimated time - 3.0 hrs)
- d. Interpretation of Bouguer data, report preparation and presentation.
(estimated time - 8.0 hrs)

Amerok Geophysics would bill the Canada/Yukon Geoscience office according to the following schedule: professional services - \$50/hr, miscellaneous costs (courier, data, etc.) - cost+10%. Estimated total cost of this work would be \$850.

If we can help you out in any way with this project, please give us a call.

Yours sincerely,
AMEROK GEOPHYSICS

Mike Power M. Sc. P. Geo.
