

GEOSCIENCE DATA DEMONSTRATION

FREE!

Interested in learning about the geoscience data available from the Yukon Geological Survey?

We are offering a one day, hands on workshop that will go through all of the data available from the Yukon Geological Survey.

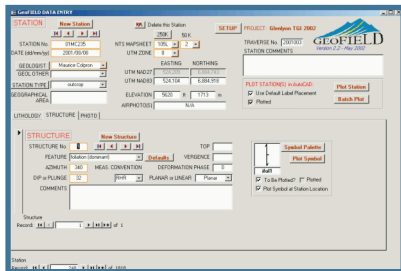

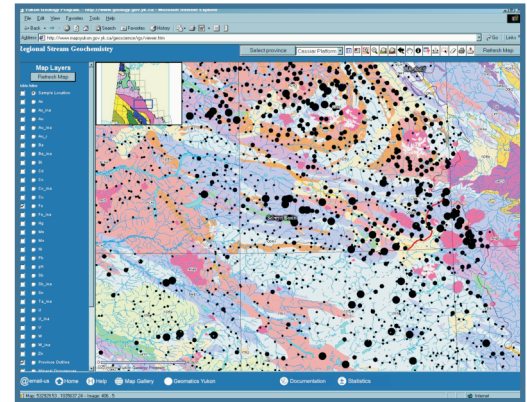

Digital Data Products

We will be demonstrating the interactive Glenlyon CD and how you can use the data on your own, including a software demonstration.

Yukon Geological Survey's Website - Map Gallery

We will demonstrate how to most effectively use the website with an emphasis on how to use the Map Gallery. We will show you how you can query the data using the Internet and how you can extract data for your own personal use.

Field Data Collection Techniques

The methodology used by the Yukon Geological Survey's geologists will be discussed with a full demonstration of how to use GeoFIELD.

**Yukon College
Room 2702
Saturday May 10, 2003
10:00 am - 4:00 pm**
